PROJECTS

1. Shoe-Buy Shop

2024

<https://shoebuy-shop.web.app/>

I used in this project advance level of React and Firebase for backend and this is fully responsively, and also used tailwind Framework for styling

2. Chap-App

<https://github.com/Hariom2312/ChatApp>

I provided github link and these project is based on communication of users where I used fronted and Backend both in this project

- Languages Used : React.JS , Tailwind, MongoDB, Express.JS , Node.JS, APIs.
